

Replacement Cover Installation Instructions for the HandsFresh Touchless Foam System (dispenser #09450)

Step 1 – Unlock front cover of dispenser by inserting key into slot on top of cover and turning key to unlatch locking mechanism (Figure 1). Open the unit by tilting the top of the cover away from the wall at a 35 degree angle (Figure 2). This will align the front cover tabs and back plate slots at the bottom of the dispenser (Figure 3a and 3b).

(Figure 1)

(Figure 2)

(Figure 3a)

(Figure 3b)

Step 2 – Apply pressure gently to one side “popping” out the old front cover tab from the back plate slot (Figure 4). Repeat for the other side (Figure 5). Remove cover and clean inside of dispenser with a damp cloth removing any soap or dirt residue.

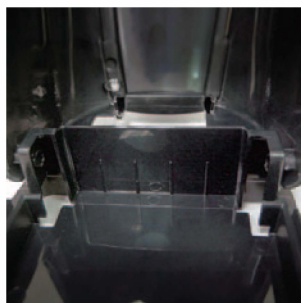

(Figure 4)

(Figure 5)

Step 3 – Install new front cover by aligning the new front cover tabs with the back plate slots at a 35 degree angle (Figure 6). Slide in one side, then the other applying light pressure while inserting the tabs and being careful not to crack the slots (Figure 7). Once both front cover tabs are fully inserted into the back plate slots close and lock the cover.
